Coordinator: FO-Aarhus, Denmark

**7 partner countries:** Denmark, Italy,  
Ireland, Croatia, Cyprus, Portugal,  
Spain

**The ARTSKUL project** proposes an innovative programme in adult education that uses performance disciplines including *music, drama and storytelling to build a suite of embedded learning educational resources* to build key transversal skills of low skilled adults.

## *What are partners going to produce (IO's) to achieve their goal:*

### **IO1 - Performing Arts Toolkit of Embedded Learning Competence Building Resources**

(suite of 42 learning resources will be produced; 14 resources for each of the three performing arts disciplines - storytelling, drama and music)

### **IO2 - Digital Media Production Skills**

(digital media production training using smartphone devices will encourage marginalised adults who engage to stay engaged. Training will be provided to allow members of each group who are reluctant to participate in the performance actions to capture, edit and produce audio and audio-visual records of the group's activities.)

### **IO3 - In-service Training**

(training will comprise 3 modules: **Module 1** - The performing arts as viable learning activities, through the use of embedded learning resources, **Module 2** - Digital media training to build the skills of educators in using smartphones for audio and audio-visual production and editing, **Module 3** - The changing role of educators with the growth in popularity of online learning)

### **IO4 - Online Learning Portal**

(an online learning portal will be developed as a one-stop-shop providing instant access to the full suite of learning resources developed.)

**A local learning festival will be held in each partner country by the end of the project** to present everything that has been produced to adult learners and to encourage them to participate in one of the informal learning activities that will be ongoing throughout the half-day event
